EXAMINER'S AMENDMENT

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel non-elected claims 15 to 36.

This application is in condition for allowance except for the presence of claims 15 to 36, directed to an invention non-elected without traverse. Accordingly, claims 15 to 36 have been cancelled.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or reasonably suggest the limitation of encoding unknown type segments using a different frame size than a frame size for encoding speech type segments and non-speech type segments, in combination with a system for encoding an audio signal of speech segments using a speech segment-specific encoder and non-speech segments using a non-speech segment-specific encoder. Generally, a frame size is fixed for a given sampling frequency to encode

Art Unit: 2626

speech. *Etter* teaches an adaptive frame size, where a shortened frame size is adapted to generate non-stationary portions of an audio signal, and a lengthened frame size is adapted to generate stationary portions of an audio signal. (Column 5, Lines 11 to 24) However, *Etter* does not employ an adaptive frame size to encode unknown type segments with a different frame size than the frame size for speech type segments and non-speech type segments. Applicants' Specification, Page 3, Lines 8 to 10, teaches an objective of providing a robust and accurate detection of an onset that minimizes signal delay from a signal frame buffer. The prior art of record does not disclose or reasonably suggest the limitation of using a different frame size for encoding unknown type segments than for encoding speech type segments or non-speech type segments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MARTIN LERNER whose telephone number is (571)272-7608. The examiner can normally be reached on 8:30 AM to 6:00 PM Monday to Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David R. Hudspeth can be reached on (571) 272-7843. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
